

Vision: Judgment For Russian Cities & Restoration After Judgment for China
November 10, 2023

Russian Cities Will Experience Judgment

In the Spirit, the Lord and I stood on a cliff. In the distance I saw Jesus taking a sledgehammer to Russian cities. Then the Holy Spirit caused the vision to zoom to Crimea, where He revealed a particular section of the southern coast would be devastated because of His judgment. This area appeared to be between the cities of Alushta to the east, and Balaklava to the west. Yalta is centered geographically between these two cities on the coast.

Judgment Will Continue Against China – His End Game is Restoration

In the vision, I sat across a board game from Jesus. He then placed a single mahjong (Chinese domino tile) at on the center of the board. In a moment, His side of the board was filled with mahjong pieces, with one placed in front of the other to form a column until they reached across, just short of the center of the board. From left to right, the multiple columns of His mahjong pieces filled His side of the board with a slight gap between each column. Each column represented a series of judgments that are already “at play” in China.

Then, they began to move on their own toward my side of the board. Each piece advanced in its column forward, still connected to the pieces ahead and behind, until they reached the other side of the board. When they reached the edge, they dropped to the floor.

It was then that the Lord picked up one piece and began to rejoice. The Holy Spirit revealed that ultimately the end of His judgments will come. When it does, He will rejoice over China for the restoration that He has already planned for in advance.
