
The Beacons of God's Glory & China's Chaos

Received September 27, 2026 – Published September 29, 2026

This vision began with the Lord pointing at China. President Xi has returned to China after meetings in Washington, D.C., with President Trump, but this will be his last visit to the United States. President Trump and Xi Jinping discussed and reached agreement on a great deal during their negotiations. However, the Lord will break the agreements, as He will not allow them to stand, because His overall plan and purpose is to disrupt and end trade between all nations.¹

I saw the Lord holding a flame under multiple light ropes that symbolized the recent agreements, symbolizing that the recent agreements will not stand, for He has determined to bring destruction to China.

The Lord then said, "It does not yet appear what I will do against Xi Jinping, but there will come a time that I will reveal my plans. Even as I have revealed that three men, Xi Jinping, Vladimir Putin, and Ali Hosseini Khamenei, had set the stage for Me to demonstrate my destructive power, so My destructive power will come to Xi Jinping and to China.² My wrath will be released against Xi Jinping, and he will be confounded and dismayed. As I have said before, I will bring My wrath against him."³⁴

"I will shake the very pillars of that nation; for there will come a day when those pillars will no longer support the weight of My wrath. One pillar after another will fall in that nation." I then saw the Lord take hold of China with His hands, and He began to shake the nation violently. The result will be severe confusion and chaos. There are numerous instances and prophecies in the Bible where the Lord wars against His enemies by bringing them into confusion (Gen 11:7-9; Ex 14:24-25; Jos 10:10; I Sam 7:10; 14:20; II Chron 15:6; Is 22:5; Zech 14:13). In the confusion, members of China's various branches of their military will think that they need to do something to restore order. However, the Lord will cause them to fight against one another. This is confirmation of a previous prophetic vision that can be viewed here: [Chaos Within China's Military](#)

This will bring chaos and terror to the masses within China because there will be no safe haven for them, and it will be of the Lord. I then saw darkness sweeping down from the region around Beijing to the south and moving southwest, taking over a number of provinces, which appeared to be the spread of chaos and confusion. The Lord has determined to bring great destruction to Beijing, including riots and fighting among different factions, but His righteousness will prevail.

As I continued to observe, I saw strong beacons of light begin to shine into the dark areas where darkness had swept across much of China. This will be the time when the Underground Church in China rises up in great boldness to preach the Gospel in the power of the Holy Spirit, with accompanying signs and wonders, even as darkness has come upon China as factions fight one another. But the Army of the Lord will be manifest, bringing forth their strong beacons of Light, in the midst of great darkness (Is 60:1-3). This continues to confirm what the Lord has previously revealed.

Then the Lord said, “Do not think that the United States won’t go through similar things, because it will.” This statement is another confirmation of the judgment the Lord intends to bring on the United States. THE LORD’S BEACONS OF GLORY

He then revealed, “Great revival will come to China as My Church takes its stand.” I then saw members of His Underground Church coming up out of the ground, symbolizing that He will release them and set them at liberty. The Holy Spirit then said, “They will move in great boldness, and nothing shall by any means hurt them, because I will be fighting with them (Jos 10:7-14) and My warriors from Heaven will be sent and will fight against the enemies of My Church.” The Lord knows who serves and follows Him.

I then saw a Chinese woman preaching with the boldness of a lion, as the Glory of the Lord shone in and through her; she was a beacon of the Lord’s Glory in the darkness. I then saw that she was preaching to a large group of armed men, telling them to throw down their weapons in the Name of the Lord. Amazingly, they listened and obeyed, because the Army of Heaven was backing up this woman. It was then clear that the Lord opened the men’s eyes so they could see the Army of Heaven behind her. This provides an example of how the Lord plans to discriminate between His people and others, something He has spoken of before in this vision: [Do Not Fear As I Move Against All Nations](#)

The Bible says that one will chase a thousand, and two will set ten thousand to flight (Deut 32:30; Jos 23:10; cf. Ps 91:7), and so the Lord will send out teams of two all across China, and He will give them great victory, and they will bring life where He sends them! They will witness on behalf of the Lord, and His fear will fall upon those who stand against them; the enemies of the Gospel will not be able to stand against His witnesses, for the Lord will fight for them! Great destruction will come from Heaven against those who oppose the Lord’s messengers.

Much more will be revealed about the future; more details will surely come as the Holy Spirit releases them.
